

HW2

Choose **one AI productivity tool** (e.g., ChatGPT, Microsoft Copilot, Google Gemini, Grammarly, Notion AI, or any other relevant AI tool) and use it to complete **one realistic academic or professional task**.

Your report should include the following:

1. Task Description

- Briefly describe the task you selected.
- Explain why you chose this task.

2. AI Tool

- Specify the AI tool used.
- Explain why you selected this tool.

3. AI Workflow

- Present the original version of your work.
- Include the prompt(s) used.
- Present the AI-generated output.
- Present the final version after your own editing and revision.

4. Critical Reflection

- Explain how the AI tool improved your productivity.
- Discuss its strengths and limitations.
- Describe the changes you made after reviewing the AI-generated content.
- Reflect on the importance of human judgment when using AI tools.

Submission Requirements:

- Submit a single PDF report (2–4 pages).
- Include screenshots where appropriate.
- Clearly acknowledge the AI tool(s) use

كل التوفيق ,,
